EXAMINER'S COMMENT

1. Claims 22-23 are allowed.
2. The following is an examiner's statement of reasons for allowance: the applicant's request for the prosecution of this application to be suspended, in order to add this application to a pending Interference, is not persuasive. The above claims not deemed to be the same invention as that in the pending Interference, as is evidenced by the applicant's arguments of 2/28/2003, which successfully argued against a Double Patenting rejection between the present claims and the claims involved in the Interference. Therefore, it appears by the applicant's own arguments, that Claims 22-23 are not the same invention as those in the Interference and thus will be considered allowed and pasted to issue. Accordingly, prosecution in this application will not be suspended.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
